

Quarterly Newsletter
No. 1

10/13/20

Welcome to our quarterly newsletter! We at Jack Home Construction are excited to share what's been going on with us the past couple months.

New Home Design Series!

The job of designing a new home can seem a difficult and daunting task. Many of our customers come to us not sure where even to begin. In order to help you with this, we're creating a series of posts about what home design elements to keep in mind when designing your new home. Hopefully, you'll find these helpful when you're choosing and/or modifying a home plan you found in a magazine.

We are excited to introduce this new series to you!

The Latest From Our Blog

[Vinyl Flooring And Why People Are Loving It!](#)

If you have bad associations with vinyl flooring, now's the time to take another look! Vinyl has come a long way and only continues to improve. Most people can't tell the difference between modern vinyl flooring and a real wood floor without careful observation, and it comes in enough styles and colors to satisfy all tastes. For a fraction of the cost of a wood floor, you can now have the same beautiful look of oak, pine, or other any other wood, but with some benefits that wood floors don't have!...

[Help! A Tree Fell On My House!](#)

After two days of heavy rains, a large tree fell on the home of a long-time customer! As soon as we got the call, we rushed out to make sure that the rain that was coming did not start pouring in through the holes in the roof. No windows were broken, but one limb punched all the way through the ceiling and into the inside of the great room!...

[Have You Been Dreaming of A New Deck?](#)

"We should have done this 10 years ago!" That was what our customers said to us after we finished this beautiful deck in Herrin, Illinois. This deck and pergola were stained using Cabot Semi-solid deck stain in two colors: Driftwood Grey and Nantucket White. We first pre-stained many of the pieces in our woodshop on Eagle Point Bay Road...

[New Home In Marion!](#)

We just completed building this new home in Marion! Here you can see the foyer, living room, and kitchen area. Some notable features are the beautiful floors, shiplap on the foyer walls, a farmhouse style kitchen sink, a stunning backsplash design across the kitchen, unique light fixtures, and plenty of large windows for letting in natural light...

[Historical Buildings of Southern Illinois | Magnolia Manor](#)

Since we at Jack Home Construction have a combined interest in both architecture and in the history of Southern Illinois, we'd like to highlight another historical building of Southern Illinois. Today we'd thought we'd take a look with you at Magnolia Manor, a Victorian manor built just after the Civil War in Cairo, Illinois...

Would You Like Custom Made Columns For Your Front Porch?

In the category of unusual projects, we were hired to replace the columns of this porch on a home in the country just south of Carbondale.

The home sits on a beautiful piece of land. The house was built in the 1950's after the original old log cabin home was torn down. Next to the house are open fields, a fishing pond, and a big gorgeous wood barn that is more than 120 years old!...

Old Train Bell Relocation

One customer, whom we have worked for over 25 years, asked us to restore and relocate an old train bell. This bell belonged to a friend of her father's. The

bell sat on the friends lake front cabin that she used to visit as a child with her father.

We brought it to our workshop and first sandblasted the rust off. We then polished the brass bell and painted the black parts with a couple of fresh coats of paint...
